

At the 17th century Jean Jacques Rousseau wrote the following statement;

“At Sorbonne University, there is no doubt that the prophecies about the messiah are referring to Jesus. It is also clear to the Rabbis of Amsterdam, with the same degree of certainty, that they are not connected to Jesus at all!

I think that I will never know what the Jews truly claim as long as they do not have their own free country, Study halls and universities where they can speak and discuss without fear.

Only then will we be able to know what they say.” [Emile 4]

Today, with the return of the Hebrew people to their homeland, Holy land, contrary to all expectations, it is time to expose to the world the truths and values that Israel holds in its long tradition and heal the world.

Our dream – Our vision:

Exposure to the Hebrew extraordinary education project

What we all have in common is the understanding that “we are all sons of the same father,” meaning that we all had the same ancestor – Adam, and therefore, we possess the amazing ability to live together in harmony and peace here in our world.

Expose our secrets:

In order to do so, however, we must encounter several truths that were passed down **secretly** from person to person, from Adam down to our very days.

Why were these ideas keeping a secret until now?

The truth is that there was a period in human history when these truths were publicly known, during the period of King Solomon about 2,700 years ago. Since then, the Hebrew nation, who had been passing down the tradition of the understandings they received from their encounter with God, were dispersed all over the world and had to preserve and protect these ideas until the right time would come and they would return to their homeland, the land of prophecy.

Learning the Bible helps us.

More precisely, learning the Bible can help when we understand it according to the way that it was interpreted and understood by the prophets. The language is slightly different than what we are familiar with today;

The values that we live by include a balanced combination of values connected to our relationships with ourselves, with others and with God. All of these values can be found in the Bible, and they contribute to our wellbeing and encourage us to treat everyone and everything around us in the proper way, since God Himself created all of this and wants the best for all.

Few words about: *Rabbi Chaim Goldberg* has worked with Jewish youth and students in the field of education for thirty years, in Israel and Australia. He was a successful high school principal for 15 years. Under his leadership, his school was awarded a prize by the Education Ministry as one of thirty top high schools from among all the schools in Israel. This high achievement was particularly noteworthy since almost all of the students had learning difficulties (ADD, ADHD, dyslexia, and more).

All this time, *Rabbi Chaim* taught the profound ideas of the Bible as they were passed on to him by his rabbis, who are among “Guardians of the Secrets” of the Ancient Hebrew People. This particular interpretation of the Bible is faithful to the source, maintaining a tradition preserved since the time of the prophets.

After surviving a terrorist attack, *Rabbi Chaim* decided to leave his 'comfort zone' and devote his life to spreading messages that can unify the world and benefit all humanity.

As part of their life treasures the people of Israel hold 'keys' to a better world which is relevant for all people. And indeed, the Bible appeals to everyone, regardless of race, religion or gender. *Rabbi Chaim* maintains regular contacts with Noahides all over the world. Recently he was invited to deliver seminars outside of Israel to help establish new communities that fully comply with these principles.

Through various contacts around the world, and in light of the success and acceptance of these messages, we are now making our materials available to the public. Our goal is to cover the material in depth in a way that is friendly and clear to everybody.

*Following is a partial list of the various topics that we are dealing with
In the seminars/lecturers held at several places around the world*

[1] When Man Meets God

Here we clarify the truth that hides between **ancient Greek mythology**, paralyzing man and his abilities, and setting the war 'dimension' between man and God - and the **worldview of the Israel sages** and the deep motivation that it manages to bring to mankind. Then **Man become as the Creator's Partner**

[2] The Shared Origin of Humanity

It's a Bible empowerment hidden system study, with the possibility that it presents unity in the world and the ability to connect the whole of humanity to a unified world.

[See what people say when they meet this message](#)

[3] Are we allowed to play the part of God

"...Man's primary problems,

Such as: melancholy, sorrow, impatience, a feeling of being 'sick of life,'
despair – Are caused by

False illusions, false fears, negative traits, absences and things that are
lacking.

[these are defined by Rabbi Kook as "the fogginess in one's thoughts]

The source of the above is a **warped understanding of the knowledge of God**, Which is the foundation of our thoughts, and to which everything is
connected..."

Correct vision and a meaningful understanding of who God is bringing the
solution to all human problems.

[See here what people say after this conversation](#)

[4] An astonishing connection between your Choice and Action

The separation between faith and action does not exist in the ancient
Hebrew world, those two (Faith & Actions) march together as an inseparable
couple. Faith in the God of Israel is a question of deeds, not just thoughts.
Faith and action are on one continuum and both express a deep bond with
God, the Creator of the universe.

The fundamental thought of the ancient Hebrew people, the people of Israel
today, is the tremendous emphasis given to will. Not only is man free to
choose and he is not subject to the blind fate, or, will of a God who behaves
according to "capriciousness" to whom he gives grace and to whom his not -
but in the depth of things; Choice, Decision, and Action are those that define
each one of us, as human beings.

[5] Thought-provoking foundation of morality And the Freedom to Choose Your 'Starting Point'

[Through understanding 'Creation', the second word of the Bible](#)

By clicking on the current link, you can find more eye-opening explanations
on the first verse in the Bible

In our meetings and seminars, we engage in **profound study** in various
fields, all relating to the Bible and to explanations that are passed down from
generation to generation in the 'secret chain' of the Jewish people.

[6] Exposure to Michael education project

Exposure to the Michael project, a successful educational program based on Bible values who succeeds in **assimilating these values** within a short period of time (a few weeks)

Values such as Free will, Human Equality, Exposing the enormous human potential inherent in every human being and more.

Life in the information age, the 21st century, is characterized by large changes, large revolutions, and rapid processes that change the reality we live in, sometimes within a few hours.

The ability to change oneself becomes critical in order not to be left behind. In order to be relevant in this era, each one must discover and become deeply familiar with the resources he or she has, and realize the personal potential.

MICHAEL method, is a unique jumping board that will train you, through special tools, to focus on your strengths, both those that are familiar to you and those that will be revealed to you during the journey that you are about to go through.

[7] Mysterious journey of Hebrew ideas through other religions

In a very comprehensive way, there are four major religious cultures today in the world. Christianity, Islam, Buddhism of the Far East, and Judaism.

It is surprising to learn that all these religions have an esoteric learning system, hidden one, and all share common principles!

In this encounter, we also offer a new insight into what is happening today in the world with Isis and his war against Christianity.

*There are many different topics, you can also order
Certain areas of interest on demand, here I bought some preliminary samples.
**If you wish to learn those issues, you're just one Email away from your
desire!***

With all my blessings and greetings

"Just be strong and very courageous..." [Joshua 1.7]

Shalom from the Land of Israel,

Rabbi [Chaim Goldberg](#)
